

iCo Therapeutics

iCo Therapeutics Inc. is a Vancouver-based reprofiling company focused on redosing or reformulating drugs with clinical history for new or expanded indications. iCo has exclusive worldwide rights to three products: iCo-007, in Phase 2 for the treatment of Diabetic Macular Edema (DME), iCo-008 (Bertilimumab), a product with Phase 2 clinical history to be developed for sight-threatening diseases; and an oral Amphotericin B delivery system for life-threatening infectious diseases. Immune Pharmaceuticals licensed systemic rights to iCo-008 in June 2011. iCo trades on the TSX Venture Exchange under the symbol "ICO".

BUSINESS MODEL

Risk-mitigated model

- Acquire promising drug candidates with identified targets and demonstration of systemic safety
- Develop novel reformulations
- Expand and create new indications for drugs

Focused on underserved markets
