iCo Therapeutics Inc.

Notes to the Interim Financial Statements

For the three month period ended June 30, 2015 and 2014

(in Canadian dollars)

1 Nature of operations

iCo Therapeutics Inc. (“iCo” or the “Company”) is a Canadian biotechnology company principally focused on the identification, development and commercialization of drug candidates with a clinical history and re-doses, reformulates and develops these drug candidates to treat sight and life-threatening diseases. The Company currently has in-licensed three compounds: iCo-007; iCo-008 and the Oral AmpB Delivery System.

iCo-007 is an antisense compound in-licensed from Isis Pharmaceuticals Inc. In August 2011, the Company initiated a US physician sponsored Phase 2 clinical trial involving iCo-007, (‘iDEAL Study’), evaluating iCo-007 in diabetic macular edema (“DME”). On June, 9, 2014, the Company announced top-line results related to the eight month visual acuity (“VA”) primary endpoint for subjects enrolled in the iDEAL Study. The Company determined that the Phase 2 iCo-007 DME data presented at that time, along with additional internal analysis, to date has not demonstrated any subgroup response rates that warrant further financial investment by iCo particularly in the DME program at this time. The Company continues to investigate other potential use indications for its licensed technology which targets the C-Raf kinase pathway. Uses of these indications may include certain oncology applications as a number of approved drugs currently target Raf kinase isoforms.

iCo-008 is a monoclonal antibody that the Company plans to take into clinical trials for vernal keratoconjunctivitis (“VKC”) and possibly age related macular degeneration. On December 8, 2010, the Company also signed an option to license the systemic applications of iCo-008 to IMMUNE Pharmaceuticals Corp. (“IMMUNE”). The option to convert to a full licence was exercised by IMMUNE on June 24, 2011. On February 21, 2013, IMMUNE announced it was initiating a Phase II clinical trial with iCo-008 (“Bertilimumab”) in patients with ulcerative colitis. The Phase II program was further expanded to examine Bertilimumab for the treatment of bullous pemphigoid, a rare auto-immune condition that affects the skin and causes the formation of blisters.

The Oral AmpB Delivery System is an experimental oral formulation of Amphotericin B that is at a pre-clinical stage.

The Company is considered to be in the development stage as most of its efforts have been devoted to research and development, raising capital, recruiting personnel and long-term planning. The Company is publicly traded on the TSX Venture Exchange under the symbol “ICO” and the OTCQX under the symbol “ICOTF”. The Company is incorporated and domiciled in British Columbia, Canada. The address of its head office is Suite 760-777 Hornby Street, Vancouver, B.C., V6Z 1S4.

iCo Therapeutics Inc.

Notes to the Interim Financial Statements

For the three month period ended June 30, 2015 and 2014

(in Canadian dollars)

2 Significant accounting policies

Basis of presentation and statement of compliance

These condensed interim financial statements for the three months ended June 30, 2015 have been prepared in accordance with IAS 34 “Interim Financial Reporting” as issued by the International Accounting Standards Board (“IASB”) applicable to the preparation of these interim financial statements. These condensed interim financial statements should be read in conjunction with the annual financial statements for the year ended December 31, 2014 which have been prepared in accordance with IFRS.

The financial statements are presented in Canadian dollars which is the Company’s functional currency.

The accounting policies adopted are consistent with those of the previous financial year; December 31, 2014.

These financial statements were approved by the board of directors for issue on August 26, 2015.

Critical accounting estimates and judgments

Estimates and judgments are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

Critical accounting estimates and assumptions

The preparation of financial statements in accordance with IFRS requires the Company’s management to make estimates and assumptions that affect the amounts reported in these financial statements and notes. The Company regularly reviews its estimates; however, actual amounts could differ from the estimates used and, accordingly, materially affect the results of operations. Areas requiring management to make estimates are on the valuation of IMMUNE Warrants.

a) Fair value of other investments

The fair value of the other investments is determined by using valuation techniques. The Company uses its estimates and judgment to select a variety of methods as prescribed under the accounting standards. At year-end management used market value for the shares and the Black Scholes model for the warrants to determining the fair value of the other investments. Refer to note 3 for details regarding the estimates used related to fair value of other investments.

3 Other investments

As part of an exclusive licence agreement entered into on June 24, 2011, with IMMUNE Pharmaceutical Inc., a private Israeli company (the “IMMUNE Licence Agreement”) the Company received 600,000 IMMUNE common shares (“IMMUNE Shares”) and 200,000 IMMUNE Warrants in addition to certain other cash consideration. Subsequently, pursuant to a share exchange in connection with IMMUNE’s merger with Epicept

iCo Therapeutics Inc.

Notes to the Interim Financial Statements

For the three month period ended June 30, 2015 and 2014

(in Canadian dollars)

Corporation in 2013, the Company exchanged its IMMUNE shares and warrants for 654,486 common shares and 123,649 warrants respectively.

The following table represents the changes in the investments for the three months ending March 31, 2015:

	Shares	Warrants	\$
Balance - December 31, 2014	536,669	123,649	1,237,235
Change in fair value of derivative (note a)	-	-	(11,482)
Change in fair value of common shares	-	-	(165,424)
Sale of shares	(536,669)	-	(1,011,569)
Balance – June 30, 2015	-	123,649	48,760

- a) The fair value of the IMMUNE Warrants were valued at year end using the Black Scholes option pricing model. The inputs used for the model are as follows: stock price US\$1.80, strike price US\$2.63, term of one year, volatility of 102% and a risk free interest rate of 0.11%.
- b) Effective December 8, 2014, the Company began selling the IMMUNE Shares, which trade on the NASDAQ under the symbol IMNP. As at March 31, 2015, all of the IMMUNE Shares have been sold at fair market value.
